1. PREAMBLE

A collaborative effort in Engineering Education has become the key to success. This has also been identified by TEQIP Project. The TEQIP Project encourages institutions to establish MOUs with neighboring institutions and industries on viable collaborative/consultancy projects with specific time-frames and well-defined outputs. The collaboration could be in the areas of credit transfer, Joint projects of students and faculty, joint publications, joint sponsored projects from funding agencies, joint faculty and staff development programmes, joint consultancy projects with a sound revenue sharing model etc.

2. PURPOSE

The aim of this MoU is primarily to establish a written document under which both the technological institutes may enter into a written agreement to perform collaborative programmes in the areas of mutual interests.
